

Armstrong Coal Company Employee Appreciation Dinner

On Saturday, August 6, 2011 Armstrong Coal Company held an appreciation dinner at the Second Baptist Church MMC Building in Greenville, Kentucky for three (3) of its operations. Parkway Mine, Parkway Mine Surface Facilities and Armstrong Prep & Dock Facility were honored for working two (2) years without a Lost Time Accident.

Parkway Mine is an underground mine located in Muhlenberg County Kentucky. The mine employs 134 and has been in operation since April 2009. Total production from the mine since it has been in operation is 3,032,175 clean tons.

Parkway Mine has established itself as a dependable and productive operation in Western Kentucky. Our employees are the top of the line in the mining industry. They are safety conscious and have proven that a productive mine is a safe mine.

Parkway Mine Surface Facilities is responsible for washing and loading coal produced by Parkway Mine. Part of the Surface Facility is the Preparation Plant which has been in operation since May 2009. The Preparation Plant is well maintained and kept in great operating condition. In addition, the employees are responsible for maintaining several miles of Haul Road traveled by coal trucks to and from the Power Plant. This facility employs 19 and has been in operation since May 2009. Armstrong Coal Company is very proud of all employees at this operation for being productive and safe.

Armstrong Prep and Dock Facility is located in Ohio County Kentucky and employs 41. The Preparation Plant has been in operation since February 2009 and is responsible for washing coal produced by two (2) Surface Mines: East Fork, and Equality. The Preparation Plant is well maintained and kept in great operating condition. The Dock load out facility allows coal to be shipped to customers via barges. Armstrong Coal Company is very proud of all employees at this operation for being productive and safe.

Armstrong Coal Company wants to thank each of the employees from these three (3) operations for their dedication to good safe work habits. You have proven for two (2) years that a productive operation is a safe operation.
